Systems

OCTOBER 2016

# HS2: Delivering Phase One and Beyond

Diversity is at the heart and is key to ensuring the industry has a balanced mix of high calibre engineers in its talent pool today and in the future.

**Engineering;** what's the context we are operating in?

**Trends, digitalisation and millenials;** are we responding to these changing trends?

**Skills, Apprenticeships and Academies;** what are we doing to attract young talent?

**Keeping experience in the industry is vital;** what are we doing to engage our experienced employees?

**'Why Transport is the Industry Place for you'**

**THALES**
