

An aerial night photograph of a city street with a railway line running through it. The street is illuminated by streetlights, and the buildings are lit up. The railway tracks are visible in the center of the image, with a train visible on one of the tracks. The overall scene is a mix of urban architecture and infrastructure.

A group of ten construction workers, including men and women, are standing on a railway track under construction. They are all wearing bright orange high-visibility safety suits with reflective silver stripes. Some are wearing white hard hats, while one is wearing a blue hard hat. They are holding various tools like shovels and a measuring tape. The background shows a construction site with gravel, wooden sleepers, and some machinery. A dark blue banner is overlaid on the left side of the image.
